- Insurance: List Company name, if assessment has been completed and the amount of the claim provided by this company: _____

  _____

  _____

Net Position of the Club
Financially, particularly the position of the club before and after the event after taking into account all of the above grants and assistance notwithstanding that all of those grants may not yet have been received or expended.

It is possible that a club with limited damage could, with a well written grant submission emerge with improved assets or fixtures and fittings than before the event and may not seek further assistance. In most cases clubs will not be so fortunate.

It is this position Bowls Queensland will consider when all facts become known.

We ask all clubs to be honest in their assessment of their own position in order that those less fortunate might receive the best possible contribution.

Documentation
Please ensure that your submission is as complete as possible.

We are not seeking audited figures or the like just an honest assessment of your position before the event and after all other benefits have been accounted for supported by quotes, receipts, photos and the like.

Should you have any questions please do not hesitate to contact this office.
